

Intellectual Property & Information Law Program

at Cardozo School of Law

CURRICULUM

Cardozo's Intellectual Property + Information Law Program (IP+IL) offers a rich curriculum of basic and advanced courses (see list below), providing students the option to pursue a concentration, Master of Laws (LL.M.) in intellectual property or Master of Studies in Law (M.S.L.) in Data and Privacy Law.

IP Concentration

Cardozo students may graduate with a concentration in intellectual property by taking at least five courses in the intellectual property curriculum, and at least two of the three core IP courses: copyright law, trademark law and patent law. The concentration will be noted on their official transcript, signaling a measure of expertise in the field.

LL.M. in Intellectual Property

Cardozo is one of a few U.S. law schools offering a Master of Laws in Intellectual Property (LL.M.) and students may write an optional thesis with the support of a faculty advisor. We offer the degree in both full-time and part-time programs, which can be completed in one, two or three years. Admission is selective and open to graduates of American and foreign law schools.

M.S.L. Degree in Data and Privacy Law | Online

Professionals who understand data production, storage, and transfer, and can manage changes in data privacy laws and regulations are in high demand in the U.S. and around the world. The Cardozo Master of Studies in Law (M.S.L.) in Data and Privacy Law responds to that need and addresses legal and policy issues and their compliance.
